

# Smart:Systems Series

A flexible platform for safe and efficient order fulfillment

The Smart:System Series combines **Smart:Drive**, **Smart:Rack 900**, and **Smart:Rack 1500** into a unified, ergonomic fulfillment platform. Built to bridge manual workflows and automation, it streamlines operations across distribution centers, warehouses, and retail stores—maximizing efficiency, scalability, and labor impact.

- Integrated mobility enables Smart:Drive to pair seamlessly with Smart:Racks for smooth, powered movement throughout facilities.
- Modular design allows configurable racks to adapt to your SKU mix, pick frequency, and fulfillment environment.
- Ergonomic workflow reduces repetitive strain and improves picker comfort and efficiency.
- Scalable infrastructure supports deployment across individual stores, regional DCs, or full networks without costly retrofits.
- Labor optimization increases picks per hour while reducing physical demand on staff, improving retention and productivity.
- Flexible deployment makes the system ideal for last-mile fulfillment, micro-fulfillment, and traditional warehouse operations.

Scan to learn more about the **Smart:System Series**.

## Smart:Drive

A compact, intuitive power-assist module that boosts efficiency and reduces fatigue during pick-and-pack operations.

- Quiet electric drive with effortless control
- Swappable battery for all-day uptime
- Quick-connect hitch for Smart:Rack units
- One-touch throttle with auto-braking
- Built for full-shift use in varied environments

## Smart:Rack 900

A compact, high-density cart for fast, agile fulfillment in narrow aisles and store-level environments..

- Slim profile for tight, high-traffic spaces
- Configurable bins and shelves for small to medium SKUs
- Lightweight, ergonomic frame with Smart:Drive hitch
- Ideal for micro-fulfillment and click-and-collect

## Smart:Rack 1500

A high-capacity rack for bulk or mixed-order fulfillment in high-volume warehouse or store settings.

- Extended layout for larger items and bin capacity
- Durable design for demanding workflows
- Flexible storage zones for varied SKU sizes
- Fully compatible with Smart:Drive mobility
